- Shelving

- Custom Pieces

The role of libraries is changing. The people who walk through our doors are not only accessing our books, they are using our space for a wide variety of purposes including access to meeting spaces, technology, classes, special collections and much more.

After assessing the changing needs of our community, it is our goal to update the library and create a space that will provide a community center concept that is relevant and effective in meeting the present and future needs of the public.

## NEW BREMEN LIBRARY RENOVATION

Our current library facility was opened to the public in 1973. In 1990, the library expanded and doubled in size to meet the needs of the growing community. Aside from updating a few interior furnishings, the building has remained relatively unchanged for over 30 years. In our new design, we plan to include the following concepts to make our space more relevant to meet the needs of today.

- Enhanced Technology
- Updated Furnishings
- Community Spaces
- Quiet Areas
- Interactive Children's Wall
- Dedicated Genealogy Area
- Meeting Spaces
- Tranquil Environment for Adults
